

Ward Leonard

Storage Solutions for Downstream Oil & Gas

As part of our MotorCare™ and GeneratorCare™ programs, Ward Leonard can protect your critical assets by offering clean climate-controlled storage in our warehouse facilities located in Houston, TX and Houma, LA.

Contact us today

for more information about our storage program or to receive a custom quote for your unique asset protection needs.

wardleonard.com

You can rely on us to ensure your valuable inventory is safely stored and maintained to working-order condition during periods of downtime. **Our storage offering includes:**

- Secure, insured storage in centrally-located facilities
- 60,000+ square feet of clean, climate controlled space
- Shaft rotation and megger testing
- Monthly asset reports
- Fully-documented maintenance history
- Immediate delivery available 24/7
- 50-ton lifting capacity
- PdMA testing

All repairs/rewinds/reconditions performed at a Ward Leonard Service Center and immediately placed into storage will retain the warrantee until the equipment is removed from storage within five (5) years. This additional benefit provides you with the confidence that your investment will be protected until you need it.

Ward Leonard will ensure your crucial rotating equipment is safely stored and ready to run at peak performance and efficiency whenever you need it. **Our facilities are capable of storing equipment such as:**

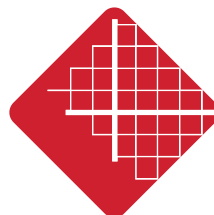

- **Electric Motors**
- **Generators**
- **Gearboxes**
- **Pumps**
- **Electromechanical Spares**
- **...And more**

Bringing *The Power of Uptime™* to the Oil & Gas Industry

What is *The Power of Uptime™*? Simply put, it is our ultimate goal to keep the Oil & Gas Industry running at maximum productivity with minimal downtime and cost. Our high quality, durable and reliable products reduce the risk of downtime and require less maintenance. Our experienced technicians provide preventative and predictive maintenance, and our 24/7 on-call services help efficiently navigate unexpected problems.
