We're Here When You Need Us to Reduce Downtime

We have more than 40 years' experience and provide:

- 24/7 Field Service
- Storm Preparation Programs
- Storm Damage Assessment and Repair Programs
- Free Inventory Assessment
- Asset Storage and Management Programs
- Emergency Dry-Out Kits

Our Urgent Response Pros are on-call to immediately come to your facility. We have multiple dedicated, passport-carrying teams of certified technicians with motor, generator, pump, and controls expertise located on the Gulf Coast.

Our On-Site Field Service technicians are highly trained and experienced in all types of work at upstream, midstream, and downstream facilities - whether it's onshore or off. Our teams are able to provide on-site motor bake ovens and dry outs as well as line testing, and can remove and install any equipment that needs to be brought to one of our facilities.

Our facilities in Houston, TX and Houma, LA are equipped with stand-by generators to power cranes, air compressors, and any equipment needed to keep shop services up and running. We're stocked with a large inventory of bearings and spare parts and feature large bake ovens to speed up the dry out and desalination process.

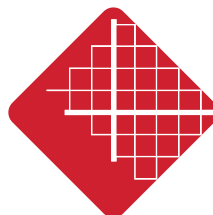

As an Authorized Service and Repair partner for many of the world's most installed motor, generator, and pump brands, you can rely on Ward Leonard to have the expertise needed to get you back up and running quickly.

Bringing *The Power of Uptime™* to You

What is *The Power of Uptime™*? Simply put, it is our ultimate goal to keep your facilities running at maximum productivity with minimal downtime and cost. Our high-quality, durable, reliable products reduce the risk of downtime and require less maintenance. Our experienced technicians provide preventive and predictive maintenance, and our 24/7 on-call services help efficiently navigate unexpected problems.
